Earbud Manual

Pairing the earbuds for the first time

1. Take out the two earbuds from the charging case and peel off the insulating film.
2. Put the two earbuds into the charging case to charge (the earbuds are activated when the indicators light white).
3. Take out the two earbuds, they will turn on and pair automatically and were prepared for pairing to the phone (the indicator will turn to blue and white alternately).
4. Turn on the Bluetooth function on your phone and search **【Alead TX8】** and connect it.

Tips: when the two earbuds can't pair under the first time use, or there is no sound in one of the earbud, please proceed as follows:

Turn off the phone's Bluetooth and the earbuds, and then hold the earbuds, power buttons for 5 seconds to turn on the earbuds and then double click the power buttons, the earbuds will enter pairing mode (indicators flash blue fast) and about 5 seconds the two earbuds will enter pair to the phone mode (the indicator will turn to blue and white alternately).

Siri:

IOS user can Triple-click the earbud to turn and click once to turn off Siri (this function only supports IOS system).

Turn off:

Put the earbuds into the charging case and they would turn off and charge automatically. Or hold the power buttons at the same time for 5 seconds while the music is paused to turn off.

Restore factory setting:

If the earbuds didn't work properly, please re_pair them as follows:

1. Clear records: turn off the phone's Bluetooth and the earbuds, hold earbuds' power buttons for 5 seconds at the same time and triple click the power buttons, the indicators will light white for one second and then the earbuds will clear the record and turn off automatically.
2. Then take out both earbuds at the same time and put them back into charging case to re-active it.
3. Auto paring: Take out both earbuds and they will be paired automatically.
4. After restore, delete the **【Alead TX8】** Bluetooth device on your phone and then research and connect **【Alead TX8】** on the Bluetooth list.

Charging

Earbuds Charging

1. Put both earbuds in the charging case, when the indicator turns to white then it's charging.
2. While in charging status, the white signal light will stay solid.
3. The white signal light would turn off when the earbuds are fully charged.

Charging Case Charging

Please use the charger with output of DC5V/1A. You can use USB cable to charge the charging case with devices which has USB ports. (Please use factory certified charger).

Warning for charging

Do not press the power button while charging the earbuds, or it will be unable to pair the two earbuds , in this case you will need to reset for the earbuds pairing.
